Instructions for Celtic Whole Cloth Quilt

This pattern is designed to stitch out at 100" square with 1" margins all around. If you have 21" of throat sewing space you can stitch this pattern. If you want to reduce the size of this quilt you would need to put all patterns onto the CAD screen and reduce them all at the same time in order for it to work. Use the top/bottom border pattern to guide your size. Example: if you wanted an 80" square quilt, reduce all patterns until the top/bottom pattern is 80".

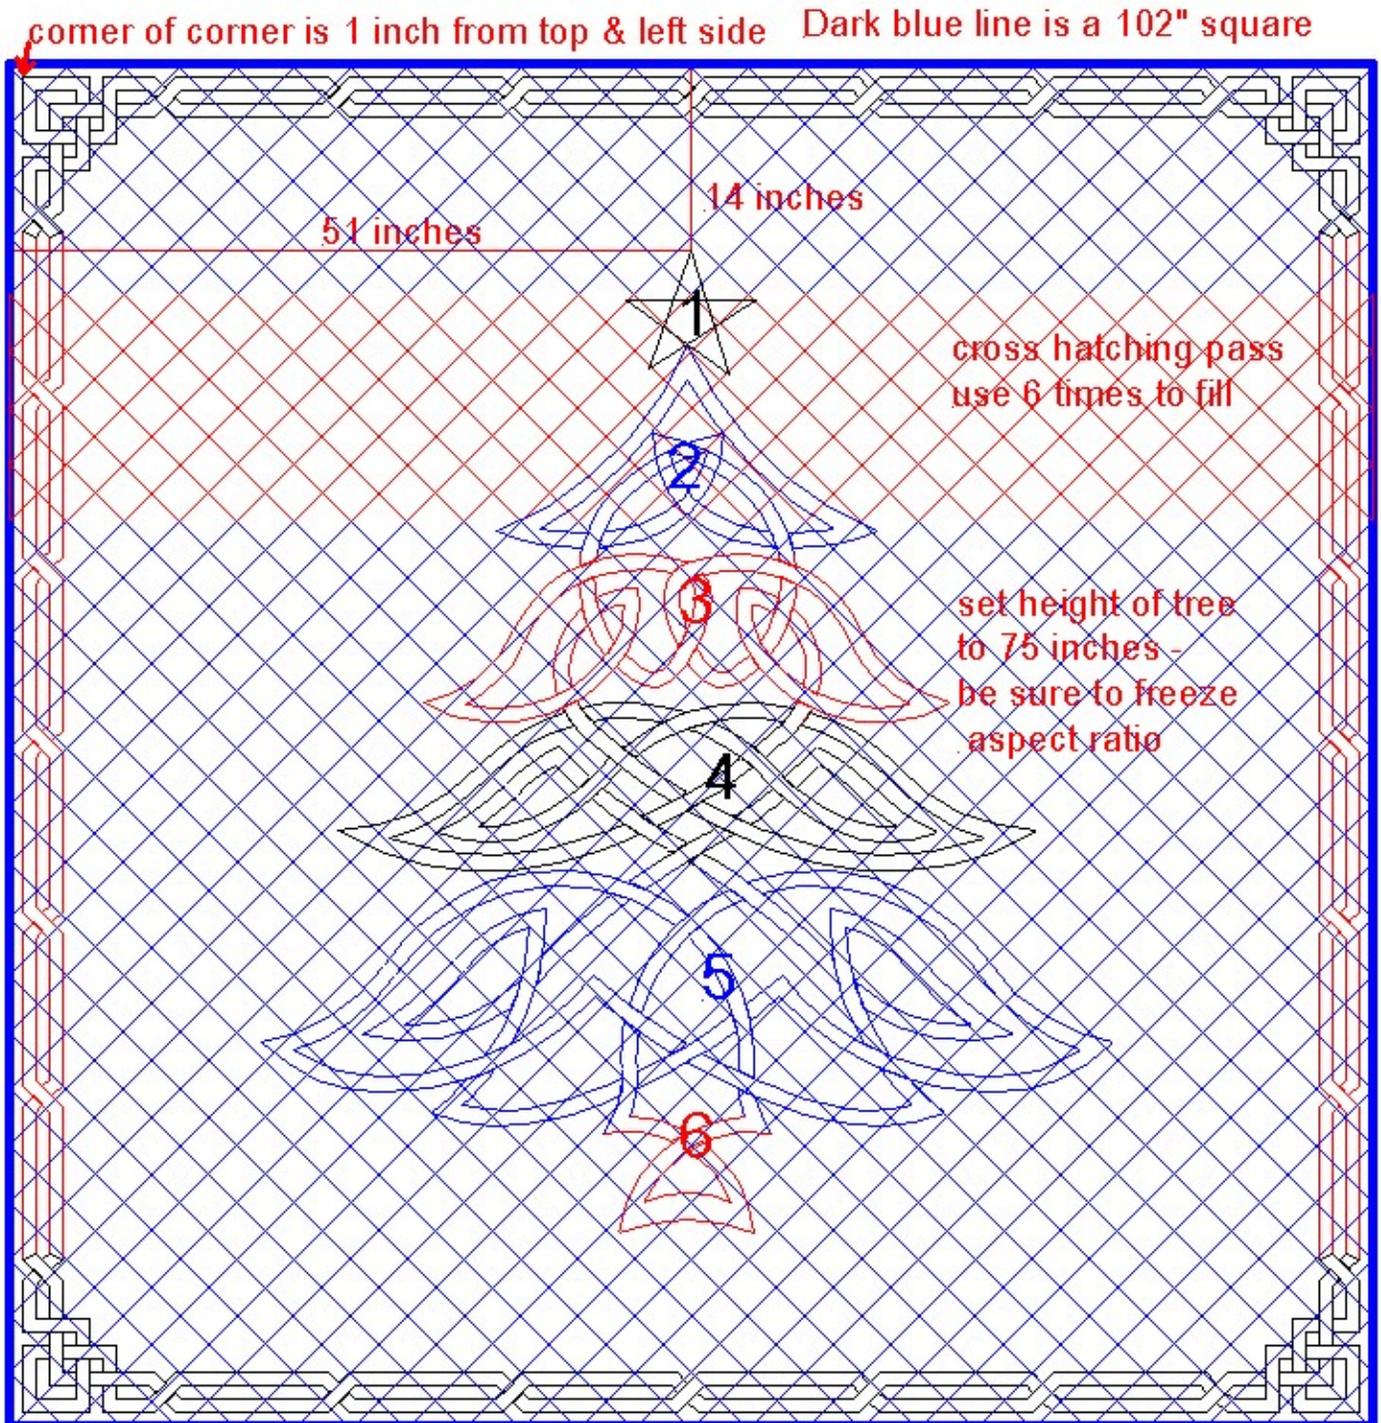

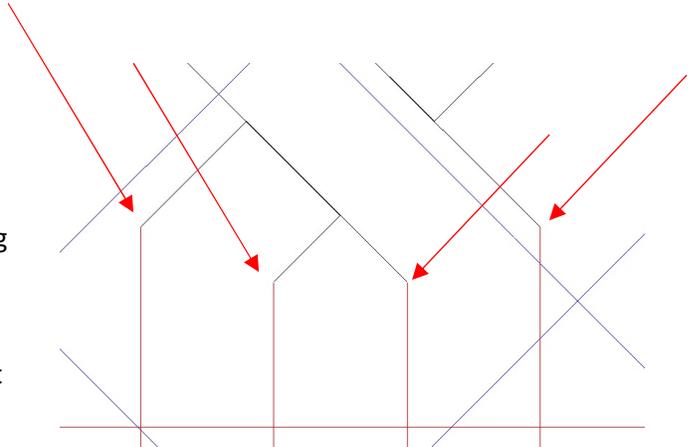

corner of corner is 1 inch from top & left side   Dark blue line is a 102" square
